

Hot tub Rules

Safety First

- Please check the temperature of the water in the hot tub before use. Maximum safe water temperature should be established by a medical practitioner, not to exceed 104 degrees Fahrenheit.
- Do not use or allow the hot tub to be used alone.
- Persons who have high blood pressure, skin sensitivities, or who might be pregnant are strongly urged not to use a hot tub. If in doubt, please consult with a physician prior to using the hot tub.
- Observe reasonable time limits to avoid nausea, dizziness and fainting. Should you experience any of these symptoms, carefully exit the hot tub immediately.
- Children under 6 years of age are not permitted in the hot tub.
- Do not use under the influence of drugs and or alcohol.
- Surrounding deck may be icy and slippery; use caution.

Other

- Cover the tub when no in use.
- No soaps, oils, lotions or shampoo in or near the tub.
- Observe bath load, Maximum is 7 people.
